Dear Friend of Dearborn Adult and Community Education,

Greetings!
The Adult and Community Education program has been a part of our District for decades! It’s one of the reasons we say our district provides learning opportunities for citizens of all ages and why we promote the concept of “life-long learning”.

During the past two decades I’ve seen firsthand how beneficial these classes and programs are in meeting the educational, recreational and childcare needs of our community members. There are plenty of favorite classes returning this fall and new opportunities for learning. I encourage everyone to take a few moments and explore the pages of this brochure. I guarantee you will find a class or two of interest to you or a family member. And, as always, offered at an affordable cost.

For those of us working in the field of education, fall is our second New Year. It’s a time when people seek out new opportunities, broaden their perspectives, and set new goals. This catalogue offers you the opportunity to be well prepared for a new line of work, new hobby, or simply to feel better about your physical or emotional well being.

Don’t hesitate; sign up today and together we will take on the challenges and exciting new adventures ahead.

Regards,

Dr. Glenn Maleyko
Superintendent
Dearborn Public Schools
We encourage questions, comments or suggestions you may have regarding the programs offered through Adult and Community Education.

CLASS OFFERINGS
The Community Education Department makes every attempt to offer each semester an adequate number of class sections of our most popular classes. However, students may find some classes filled to the maximum enrollment. Waiting lists are established for classes that have filled, and in many instances an additional section of the class will be offered. Classes with inadequate registration may be canceled or shortened. Students are encouraged to register as early as possible during the registration period to avoid disappointment.

ELIGIBILITY
Enrichment Programs
All persons 16 years of age or older are eligible to participate in the Adult Enrichment and Business Education programs. If a student attends high school, he or she must have written approval from a counselor. Please note programs for school age students.

FEES
◆ Registration fees are due when you register. There is a $5 non-refundable registration fee.
  Phone and fax registrations are only accepted with credit cards.
◆ Materials' fees are generally collected the first night of class by the instructor. If a lab or materials' fee is charged for a class, all students, including senior citizens, must pay the fee.
◆ Supplies should not be purchased until you know classes will be held.
◆ $5 Service fee is applies to ALL registrations and covers website cost, registration staff salaries and bank fees.

IMPORTANT NOTES
◆ Plan to attend class unless notified otherwise. You will be contacted only if a class is full, canceled or the time/date has changed.
◆ If the Dearborn School District closes due to weather conditions, Community Education programs will not be held. Call (313) 827-3008 for updates.

Zone Toning – 2 in 1 (Back at it Fall Blaster)

Top Winners FOUR YEARS STANDING in the "WDIV VOTE 4 the BEST" Contest!!

If fat loss and creating muscle are your goals, this is your class. Busy people don't have time to target one muscle group at a time, and then do a separate cardio workout. If you want to slim down and tone up fast, you need to do exercises that stimulate as many muscle groups as possible at the same time. Instructors keep classes progressive and dynamic to ensure muscle challenge with combination of Pilates, weights and resistance bands. Compound moves boost metabolism, increase heart rate and train multiple muscle groups at one time which creates optimal muscle definition and means you are automatically burning extra calories. Engaging more muscles puts you in the cardio zone without running, jumping or dancing. Total fat BLAST each session. **Bring 3-5 lb. weights, water and a mat. Dyna-Band™ can be purchased from instructor for $6 each & Thermal Abdominal Bands $10.**

AAA Driver Training

Learning to Drive? Learn from the BEST!
AAA knows driving. They've been involved in driver education since the 1930's. They provide ADTSEA certified AAA instructors (American Driving and Traffic Safety Education Association).

Everything the state requires and more...
One course, one goal: creating the best, safest drivers in the state. The Novice Driver Training program utilizes AAA proprietary program "License to Learn". It’s a departure from conventional driver education programs. The program was developed based on a study of 2,000 teen crashes. The emphasis is on interactive learning and feedback. The course is a DVD based (series of Power Point informational and discussion slides; and short video segments), interactive curriculum, focusing on why teens crash.

Your choice of 6 hours or 8 hours on-road instruction:

PREMIUM on-road instruction (recommended): 8 hours of training, plus 4 hours of observation. The premium program provides greater opportunity to work on emergency breaking and steering; off-road recovery; cruise control usage; and skills test preparation.

BASIC on-road instruction: 6 hours of training, plus 4 hours of observation. On road training is conducted using set routes with carefully designed learning objectives.

School-Age Enrichment Classes

**Mad Science**

*Energy, Motion and Nature Program!*

In these six fun-filled Mad Science classes, your young scientist will explore the earth’s layers, get charged up by electricity and find out what makes forces tick! Combine atoms and molecules, get a close-up of animal claws and teeth and catapult into the world of science in Energy, Motion, and Nature.

The program consists of the following classes:

**Earthworks**

Dig in to Earth science! Check out rock samples to find out how they were made and where they were formed. Inspect minerals to see them fluoresce. Learn what causes bends and breaks in the Earth’s solid rock layer. Use the Experitube Take-Home to see sediment settle into layers!

**Current Events**

Get charged up about the science of current electricity! Learn how tiny invisible particles power everything from the fridge to the radio. Complete the circuit to light a bulb and sound a buzzer. Experiment to find out what conducts and what doesn’t. Build and take home a Circuit Maze to test family and friends.

**Fundamental Forces**

Time to find out what forces make the universe tick! Hands-on investigation leads us to learn about gravity, inertia, and centripetal force. Students will use a bike wheel gyroscope, a coin-spinning vortex and the amazing balloon centrifuge. Try your new skills while playing the Gravity Game take home.

**Matter of Fact**

What’s smaller than small? Atoms and molecules! Students will learn how atoms combine to make molecules and will examine molecular bonding using molecule models. What’s the difference between a chemical and physical change? Your Junior Chemist will be able to tell you after mixing up their very own Mad Science Putty!

**All About Animals**

It’s a zoo in here! Get ready to learn about the incredible and diverse animal kingdom! After learning how animals adapt to their habitat through specialized feet, fur and feathers, students will gain some hands-on experience with real claw and tooth replicas! Activities about classification, camouflage, and life cycles will round out this introduction to zoology. Ready to step into their shoes? Students will create their own Animal Track casts to take home!

**Moving Motion**

Children catapult into Newton’s three laws of motion! Yank a tablecloth, explore mass versus weight and see action-reaction forces at work. Have fan carts race through a room and launch 1447-F17A Snow (Art Room) 3:50-4:50 p.m.

We strive to provide quality programs that meet the ever changing needs of our families. For that reason, we offer a variety of preschool options in addition to Kids Club, before and after school age program.

Mini Scholars and Little Scholars is our highly regarded, developmentally appropriate preschool program. We offer a 2-day session for Mini Scholars who are 3 by September 1st and a 3-day session for Little Scholars who are 4 by September 1st. We also offer a toddler and partner session for our Wee Scholars.

The Dearborn Montessori Preschool classroom is a blend of students who are 3 and 4 years old. Students must be 3 by September 1st. Our students attend five days a week, full day sessions experiencing the Montessori child-centered curriculum and methods.

All Day Preschool offers working parents the option of preschool 2-5 days a week, 10 hours or less. A developmentally appropriate center based curriculum is included with snacks, free play, lunch and rest time. This program is available to preschoolers who are 3 to 5 years old and toilet learned.

Kids Club, our school age before and after school program, operates at eight elementary schools. It is an enrichment program that offers a large variety of engaging activities, as support for the Core Values and the CATCH program. We also offer Kids Club as a Late Start only option where available. See the Kids Club staff at your school.

Half Day Preschool is a mixed age classroom that is center based with additional focus on Daily 5, early math and science concepts, and music and movement. Children must be 3 years old and must be fully toilet learned. This program is available 5 days a week.

Summer Adventure Club is our fabulously fun summer program for students from 3 years to 12 years of age. Weekly themes and field trips keep the summer moving and your students engaged.

We are very proud of all the programs offered by the Early Childhood Department! Please call our main office if you have any questions or need further information. We are currently accepting registrations for our programs for the 2017/18 school year. Thank you for your continued support!

Montessori Preschool

Howe School - 22586 Ann Arbor Trail, Dearborn Heights, MI 48127

Call for registration and tour information: 827-7686

The Dearborn Montessori Preschool is an academic program that educates the whole child -- socially, emotionally, physically and intellectually.

The Montessori method uses a “prepared environment”.

Its structure involves many materials used independently.

The teacher acts as the facilitator, the child as the active learner.

This is the core of Montessori’s educational philosophy.

Preschool is open to children who are 3 or 4 years old by September 1 of the current school year.
